

KIECKER  
LAW OFFICE

## Family Law

When people enter into a marriage they believe that it will last forever. Unfortunately, that is not always the case and one spouse or both may wish to dissolve the union.

That is where I come in. At the Kiecker Law Office I have experience assisting clients throughout the Mankato area with divorce. From preparing the initial paperwork to the final divorce decree, I will be there to assist you.

If there are children of the marriage, I can also assist with issues of child custody and child support that often arise during the divorce.

If you are considering getting a divorce in Southern Minnesota or have already been served with divorce papers, it is important to contact an experienced attorney to fight for your interests.
